

Dear Parents and Guardians

September 1, 2021

Hinode Private Nursery School Principals Association

Thoroughness of Infection Prevention Measures for COVID-19(Request)

We would like to express our sincere gratitude for your understanding and cooperation in the operation of the nursery schools in Hinode. I would also like to express my sincere gratitude to all the parents who are taking thorough measures against COVID-19. On Tuesday, August 17, 2021, the period of the "Emergency Declaration" was extended again in Tokyo based on the "Act on Special Measures against Pandemic Influenza". Nursery schools in the town are open as usual after taking thorough measures to prevent infection and spread of the disease, but the flow of people will change with the start of the new school year. We ask that parents continue to take extra care of their children's health and hygiene at home.

1, If any of the following applies to your child or parent, please contact the nursery immediately and share the information with them.

2, Others

(1) Please pay close attention to the health of your child, and if they are not feeling well, please have them stay at home to recuperate.

(2) Since January 8, 2021, except in the case of temporary closures, we have not been able to reduce the daily rate of childcare fees and lunch fees.
